"FLORAIRE" ALPINE SEEDS

CORREVON FILS (1875)

GENEVA

SWITZERLAND

U.S.A. STOCKED SEEDS.

This list covers only **Correvon Original Seeds** that are carried in stock at Bridgeboro, New Jerseys, for immediate order filling (unless sold). If you wish other kinds, please ask for a copy of the general catalogue of Correvon Fils, listing the some 4500 species and varieties that are stocked at the home establishment in Switzerland. We shall be glad to transmit orders on yours behalf to Switzerland, and to remail such seeds to you promptly upon their arrival in this country.

KEY TO SIGNS.

B = Herbaceous Border,
C = Cut Flower,
E = Dwarf edging,
G = Climbing.
H = Wants moisture,
O = Shade,
P = Alpine Meadow,
R = Rockery,
S = Sun loving,
U = Woodland, under trees,
l. = Usual good rock garden soil

W = Wall plant
f. = Foot
fl. = Flower
fol. = Foliage
in. = Inch
lea. = Leaves
2 = Richer, with leaf soil and sand.
3 = Appropriate mixture of sand, peat, slate dust, or heath soil.

SOWING.

Soil. — Prepare a sandy soil ; sand, peat and light garden soil. Sow — well spaced — in pots, pans or boxes, with good layer of gravel for perfect drainage. Cover slightly one *size of seed* only. Keep these in a cold frame, moist all the time as evenly as possible. The seedlings should be transplanted once before their definitive place.

Time. — Difficult seeds, long to germinate, should be sown in november and december. Such seeds are among Ranunculaceae (Anemone, Ranunculus), Primulaceae (Primula, Androsace), Gentians, Monocotyledonous (Orchis, Iris, Lilies, Crocus, many bulbs).

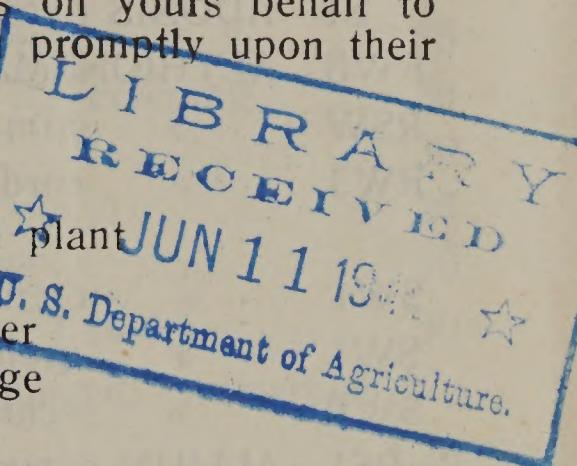

Easy seeds should be sown in late winter or early spring. Those are among Campanulaceae (Campanula), Cruciferous (Aethionema, Arabis, Alyssum, Erysimum), Compositae (Aster, Erigeron, Hieracium), Caryophyllaceae (Dianthus, Arenaria, Gypsophila, Silene).

Please address all communications and make all remittance to :

CORREVON-AMERICAN

BRIDGEBORO

NEW JERSEY

ES1	ACAENA	Sanguisorba, creeping, for dry places	15
SR1	ACHILLEA	argentea. Yarrow. Silvery fol., white fl.	20
SR1	»	Clavennae. Silvery fol., white fl.,	20
SR1	»	sarracenica, green leaves, white fl.	20
OB	ACONITUM	paniculatum panicle of deep blue fl.	20
OB	»	variegatum, fl. blue and white	20
O2	ACTAEA	spicata, black berries	20
R1	ADENOPHORA	diplodanta, blue bells	20
R1	»	liliifolia, pale blue	20
R1	»	Potanini, pale blue, 2 f.	25
S1	ADONIS	pyrenaica, yellow fl., fine green fol,	30
